TECH SKILLS

Programming: Java,Python, C, C++

Web:HTML, CSS, JavaScript,Express.js,TypeScript,React, Vite,Node js

Android Development: Android Studio, Activities, Fragments, Material Design, Firebase Integration, REST APIs

Database:
MySQL,Supabase,Firebase,MongoDB

IoT Arduino, Sensors,Raspberry Pi

ToolsVS code,Git,Github

SOFT SKILLS

- Problem Solving & Creativity
- Analytical Thinking
- Attention to Detail
- Patience & Persistence

INTERESTS

- Web Development
- Full Stack Development
- Android Development

LANGUAGES

- Hindi
- English
- Marathi

PROFILE

Diploma Computer Engineering student seeking an internship to apply technical skills, gain practical industry experience, and contribute to real-world projects while learning new technologies.

EDUCATION

Diploma in Computer Engineering — **Present**
Government Polytechnic Pune — Score: 92.69% (2nd Year)

SSC
Mahatma Phule Vidyalaya Tembhurni — Score: 97.00%

PROJECTS

NearBites:The Local Solution
Local food/menu discovery and vendor management platform. Built using React, Vite, TypeScript, Express, and Supabase. Includes vendor dashboards and mess management modules.

VisionSecure System
Android and Python integration using OpenCV for face verification, monitoring, and robust security-focused application workflows.

DJVC System
Desktop-based collaborative version control platform using Java Swing, TCP/IP socket programming, UDP communication, and JDBC. Features include user authentication, project management, and real-time client-server chat.

ECCA: Eco Conservation
Environmental conservation awareness platform featuring sections on water, forest, and wildlife protection. Developed with a responsive layout, animated marquees, and interactive routing.

ACADEMIC ACTIVITIES

- Developed Java-based academic applications, applying object-oriented programming principles and problem-solving techniques.
- Designed and developed Android applications using Android Studio, implementing activities, fragments, and user-friendly interfaces.
- Performed database design and database operations using MySQL and Oracle, ensuring efficient data management.

CERTIFICATIONS

- **JavaScript**
- **Python Programming**
- Application using Android Studio IDE Infosys Springboard
- Software Engineering
- Software Testing Management
